Conversion Concept

AIDAR Model identifies the stages that an individual goes through during the process of purchasing

Conversion: the process of changing or causing something to change from one form to another.

CONVERSION RATE = 10%

CALCULATING CONVERSION RATE:
 $5 \text{ sales} / 50 \text{ visitors} \times 100\% = 10\% \text{ CR}$

50 visitors

5 sales

Total Conversion Value: is the sum of conversion values for your

"Conversions." You have to enter a value for your conversion at this point to make the total value.
